

**Parkfield Primary School**  
**Vision for the PE and Sport Premium**

ALL pupils leaving primary school **physically literate** and with the **knowledge, skills and motivation** necessary to equip them for a **healthy, active lifestyle** and **lifelong** participation in physical activity and sport

Total funding for 2018-2019    **£19,440**

Total spend **£19,404.50**    Underspend of    **£35.50**

**Reflection: what we have achieved**

Key indicators for improvement	Signs of success	Cost
<p>The engagement of all pupils in regular physical activity</p>	<p>20 minute focused year group sessions continue during lunch for junior classes continues with new equipment and new games – experiencing basketball, skipping, tennis, cricket, skipping, football (seasonal)etc... increased pupil participation in sport over lunchtime with 100% of the focus on children being active for at least 15mins. And raising their heart rates <b>This is continued on from 2018</b></p> <p>Safety in the playground is better with less incidents and accidents now occurring in the playground since introducing the scheme last year (accident average Sept- Mar 10 per month/accident average Mar- Jul 8 per month). As in previous year. <b>This is continued on from 2018</b></p> <p>Sports ambassadors continue (8 KS2 children) working with younger children this happened regularly during lunchtimes and children having allocated slots. 2 Previous ambassadors trained the new ambassadors. Scheduled training sessions after school run by the school sports partnership were attended and allocated boards now exist in the hall maintained by the sports leaders. <b>This is continued on from 2018</b></p> <p>Following the years training, monitoring showed that the majority of MTS staff were now using the games taught and methods for engagement. This may need to be followed up for the momentum to continue in the coming year.</p> <p>Yr3 &amp; 4, continue swimming lessons rather than the older children as this was successful the previous year and there is now consistent participation of 97% children attending weekly. Year 4 children were tested at swimming during a session at the end of the year. <b>See separate sheet</b></p> <p>New equipment purchased to extend the range of sporting activities offered; Hockey, Boccia, table tennis, netball etc.. An increase of SEN children taking part especially in Boccia tournaments and having success with tournament for their age group. Our very first sporting success!!</p> <p>Bikers Breakfast continues and encourages children to come to school under another means of transport other than the car. This has been highly successful. On average the attendance has been approx. 40 children per session. More children now scoot or cycle to school. This has led to a higher number of children participating in the Barnet cycle training ( 20 children this year from Yr 5 ) We have now been able to get a grant for a bike shed which will be erected in the coming year.</p> <p><b>Breakfast club now includes physical activity with one member of staff supervising the activity.</b></p>	<p align="center"><b>£12,139.50</b></p>

	<p>SEN pupils have had daily dancing and meditation. Fun sporting activities for year 6 - inflatable football. After school clubs remain popular with attendance of 230 pupils throughout the year Outdoor gym has been a positive move with many of the children using it after school with their parents. It is also used in warm up sessions in lessons.</p>	
<p>The profile of PE and Sport being raised across the school as tool for whole school improvement</p>	<p>Sports leaders 5 girls and 5 boys worked with the younger children throughout lunchtimes on different skills and introducing new games. They worked alongside the MTS staff after their training as well. Children attended more sporting events; attended Rugby league tournament and cricket tournaments. A larger group of children took part in athletics at the Allianz stadium and were better equipped to participate because of the opportunities, resources and coaching they had received at school (now ranked 6<sup>th</sup> in borough rather than 7<sup>th</sup> in the small schools section ) Year 2 pupils had the opportunity to experience Bell boating. Year 6 had opportunities of Archery and golf . Development of skills in lessons increased the standards of sport across the school – showcased at sports day. Healthy lifestyles continued with summer term cookery club and cooking equipment was purchased for school. The kitchen staff again got involved with the children making healthier choices in developing the school menus and in practical session of bread making. Pupils from across the school performed in the Dance festival at the Arts depot with two teachers volunteering to take on the extra responsibility.</p>	<p>£2,965</p>
<p>Increased confidence, knowledge and skills of all staff teaching PE and sport</p>	<p>Staff training continued in Athletics and dance delivered by both a PE advisor and School PE leader. Observations show that teachers are now more confident in teaching good quality Gymnastics and dance sessions. Subject leader training led to further development of sports ambassadors, planning sports day more constructively, planning participation in more competitive programmes and outside school experiences. Teachers continued to develop their dance skills from CPD in 16/17 2<sup>nd</sup> Parkfield Dance Festival - which had to be spread over two days to accommodate all the parents. The standards of dance have increased and showed clear links to our integrated curriculum.</p>	<p>£4,300</p>
<p>Increased participation in competitive sport</p>	<p>An increase in resources and planned skills time has helped in the progression of pupils abilities in their chosen sport and the participation in different competitions and leagues; Netball, football, tag rugby, tennis, golf, boccia, games and athletics. SEN children with EHCPs continue to take part in competitive sport. (100%) E.g Boccia tournament etc. Sport this year has been used to raise self-esteem (choosing children who may not always push themselves forward for teams) and to welcome new pupils into school by including them in teams straight away and so establishing friendship through sport. This year saw the inclusion of the Elliot Foundation Games where Elliot schools competed against each other this will now be held annually. Parkfield were the proud winners of the year 2 challenge games held at the Hyde. Also now included in this were opportunities for children that had been recognised to have a particular talent E.g Entry for Gymnastics competition, Tennis tournaments. More pupils were given opportunities of entering competitive sports by the school entering B &amp; C teams as well as A teams. All pupils continue to take part in the virtual challenges across the borough with successful outcomes for the first year. Parkfield Pupils were named for their achievements in the virtual challenges and the school came 8<sup>th</sup> overall in the borough with year 2 winning their challenge overall.</p>
